SPACE

Tables

When
ALL Tables Turn
Intelligent

Helios **new**

Helios, with its round top, is an extremely versatile table both in function and in design. The mechanism has been conveniently studied to transform from an alluring coffee table to a dining table, extending with ease for the family and guests. The metal base crossbreeds in a suggestive and pleasant linear visual effect.

Icaro **new**

Icaro will bring your expectations beyond imagination with its smart practicality. This table folds like an origami to free or decorate space following any need. A real gift for those who love dynamic and creative solutions in its house.

Transformable Table

Ulisse **best selling**

Our best seller, transforming coffee table, it turns into a dining table. Metal frame, gas lifting device, millimetre-adjustable height from cm 22 to cm 88, melamine, lacquered, stained wood, mortar-look or ceramic rectangular top, 2 inside extensions. Under-base wheels.

Tavoletto

Transforming coffee table, it turns into a dining table or into a bed, metal frame, gas lifting device, millimeter-adjustable height from cm 25 to cm 75, melamine, wood or mortar-look rectangular top.

Bessy

Transforming coffee table which turns into a dining table. Metal frame, gas lifting device, millimetre-adjustable height from cm 16 to cm 78, melamine, glass, lacquered, stained wood, mortar-look or ceramic doubling top. Under-base wheels and side translation castors.

Micro

Extendable eco wooden console table with 4 extensions placed in the pivoting central leg. Aluminum telescopic mechanism and wheels under the feet for a simple use.

Ares Fold

Transforming coffee table which turns into a dining table, steel central column, gas or electric with rechargeable battery lifting device. Millimetre-adjustable height from cm 41 to cm 82, melamine, lacquered, stained wood, mortar-look or ceramic rectangular top, 2 inside extensions. Hidden under-plate castors.

Markus

Transforming coffee table. Thanks to its large dimensions, Markus enables all those activities that require a large space, such as working on a PC, looking at an iPad, writing or having a tea break, much more than a simple table.

Fahrenheit

Metal frame extending dining table, top in melamine, wood with bark edges or mortar-look, 2 inside extensions.

Tower Maxi

Extending dining table with metal base, top in melamine, wood or mortar-look, 6 lateral inside extensions, supporting folding legs.

Table

reddot design award
winner 2016

4x4 by Giulio Manzoni

The revolutionary table designed by Giulio Manzoni wins the prestigious award - Red Dot Design Award 2016.

The new table 4x4 presents an exclusive opening system. The product changes its shape and outlook because of the extensions that, once opened, cross the veins of top and give an elegant leitmotif. Metal frame extendable dining table with wooden top and extensions, metal sliding mechanism.

type: dining | configuration: rectangular
style: contemporary
material: metal, wooden

SPAZE

Kitchen

Bora
Smart Kitchen

We nip cooking vapours and odours in the bud by drawing them off where they arise: directly at the cooktop, from the saucepan, roaster, frying pan or grill. And we do this not by magic, but by applying the basic principles of fluid mechanics. We simply use a cross flow which is greater than the rising speed of the cooking vapour.

Bora Basic

A revolution for every kitchen.

Starting from the potent combination of a powerful cooktop and an effective cooktop extractor, we created BORA Basic, an attractive unit with an unusual design. This innovation is the first of its kind in the world; with its attractive price-performance ratio, it is heralding the end of the extractor hood at last. BORA Basic gives everyone the chance to enjoy the advantages of BORA – successfully taking their first steps toward a high-end kitchen. The easy-to-operate power electronics, which were specifically developed by BORA, are also a testament to the exceptional value of the compact unit.

Unique advantages for greater freedom in the kitchen.

-  Cooking while surrounded by fresh air
-  Effective and quiet
-  Simple cleaning
-  Saving energy is made easy
-  Quality 'made in Germany & Austria'
-  Design freedom without disruptive extractor hoods
-  A clear view when cooking

For more info kindly visit www.mocof.com.my/kitchen

BIU

BORA induction glass ceramic cooktop with 4 cooking zones and a cooktop extractor – recirculation

Cooktop:

- Power setting
- Automatic cut - out
- Timer function
- Residual heat display
- Pan size recognition
- Childproofing feature

Extraction system:

- Power control via touch
- Automatic continued running (10 min.)
- Automatic safety shut down
- Filter service display

- Please note that induction cooktops require special induction - capable cookware.
- Connection cables must be made available on - site.

BFIU

BORA surface induction glass ceramic cooktop with 4 cooking zones and a cooktop extractor - recirculation

Operation:

- Touch-operated round slide control

Cooktop:

- Automatic heat up function
- Bridging function
- Power setting for all cooking zones
- Timer function
- Residual heat display
- Pan size recognition
- Pause function
- Heat retention function
- Childproofing feature
- Safety shut-down
- Power management is only possible at the front or rear on each side

Extraction system:

- Energy-saving fan (EC-motor)
- Freely adjustable power control
- Automated cooktop extractor function
- Automatic after-run
- Safety shut-down
- Filter service display
- Interface for external devices via Home In or Home Out
- Power setting

The BORA principle.

Or – physics can be so ingenious.

Cooking vapours rise at a maximum speed of one metre per second.

The BORA cooktop extractor draws off the vapours in a downward direction at about four metres per second.

The higher cross flow suction draws away cooking vapours and odours effectively and directly at the cooktop.

Bora Professional

Functionality meets design. When the need for functionality meets a strong appetite for design, the ambitious cook chooses BORA Professional. The BORA Professional cooktop extractor system boasts: our largest selection of the most powerful cooktops – extra-deep at 54 cm, the cooktop extractor, rotary knobs made of solid stainless steel, and a variety of options that gives you extraordinary design freedom.

BORA Professional is a combination of a high-quality extractor and powerful, extra-deep cooktops.

PL540E
BORA Cooktop Extractor

- Freely adjustable power control
- Power control using solid stainless steel control knob
- Integrated cover flap
- Installation type: flush and surface-mounted
- Stainless steel grease filter
- Cooking zone indicator
- Automatic after-run
- Filter service display
- Safety shut-down
- Interface for external devices via Home In or Home Out
- Ability to connect two BORA fan modules

PFI11
BORA surface induction glass ceramic cooktop with 2 cooking zones

- Heat retention level
- Power setting
- Bridging function
- Residual heat display
- Pan size recognition
- Automatic pre - cook valve
- Digital power display on the cooktop
- Childproofing feature safety deactivation
- Please note that with induction cooktops, induction-compatible cookware must be used.
- Ensure that there is sufficient ventilation below the induction cooktop.

PT11
BORA Tepan stainless steel grill with 2 cooking zones

- Full - surface Tepan stainless steel grill with 2 cooking zones
- 6 mm deep - drawn, brushed stainless steel with rounded interior edges for easy cleaning
- Freely - adjustable temperature regulation of both cooking zones separately possible
- Childproofing feature

Bora Professional Revolution 2.0

The symbiosis of innovation, aesthetics and effectiveness

The new BORA Professional was developed on the premise of combining simplicity, functionality and optimum performance in a single, electronically controlled system. The heart of the Revolution 2.0 is the user interface which allows the cooktops and the cooktop extractor to communicate with one another. This enables us to achieve optimum user friendliness and outstanding effectiveness. Everything is made possible by an intelligent control knob: from power control to the various function programmes to the temperature indicator.

Bora Professional 2.0

BORA Professional is a system solution that offers uncompromising quality in every last detail. The innovative EC motor technology enables class A++ energy efficiency.

- The motor and cooktop extractor come as a compact unit for floating worktops
- Minimum installation height of 199 mm for compact systems enables the greatest design freedom
- Electrically controlled extraction flap on the cooktop
- Largest selection of powerful cooktops with an impressive depth of 54 cm and 20% more net cooking surface area than conventional cooktops
- Deeper-set gas cooktops with the highest efficiency even when operated with gas
- Intelligent control knob with integrated function programmes
- Cooktop and cooktop extractor communicate with one another for optimum performance
- Maximum net cooking surface area thanks to knob operation
- Simple cleaning thanks to the wide extraction opening and easily removable filter and tray
- Optimum grease particle capture rate and 100% functional guarantee on the complete BORA system

Components of the BORA Professional 2.0 sets The BORA Professional 2.0 sets – cooktop extractor system with two cooktops

BENEFITS TO YOU: one order number, one price.

- The latest motor technology, low-noise EC motors
- Maximum storage space in the floor unit through a low appliance height of only 199 mm
- Compact unit with integrated fan enables floating worktops and low plinth heights
- Extra-deep 54 cm cooktops provide space for two very large pots or pans to sit one behind the other
- Large flat 230 x 460 mm induction cooking zones (PKASFI and PKASFIT set)
- Powerful tepan cooktop with precise temperature regulation, cleaning function and optimum heat distribution through micanite surface heating elements (PKASFIT set)
- Automatic-opening electric cover flap with integrated sensor
- Intelligent control knob with integrated function programmes and digital display
- Stainless steel grease filter in proven BORA quality materials, dishwasher-safe
- Can be surface-mounted or flush-mounted
- Suitable for recirculation or exhaust mode
- Recirculation: can be combined with BORA ULB1 or ULB3 air
- Exhaust air: can be combined with the BORA Ecotube duct system and the BORA 3box wall sleeves purification box

Cooktop Extractor System PKAS BORA Pro 2.0 Cooktop Extractor

- Control knob for power control
- Power display
- Electrical cover flap
- Cover flap sensor
- Stainless steel grease filter
- Grease filter sensor
- Automatic cooktop extractor function
- Automatic after-run
- Filter service display
- Interface for external devices
- Safety shut-down
- Ability to connect an additional BORA Universal fan module

Cooktop PKFI 11 BORA Pro 2.0 surface induction glass ceramic cooktop with 2 cooking zones

- Heat retention function
 - Power setting
 - Bridging function
 - Residual heat display
 - Pause function
 - Timer function
 - Configuration menu
 - Rotation by 180° possible during installation
 - Cooking zone indicator on the control knob
 - Demo mode
 - Pan size recognition
 - Automatic heat-up function
 - Digital power display on the control knob
 - Childproofing feature
 - Safety shut-down
- Please note that induction-compatible cookware must be used on induction cooktops
- Make sure that the area below the induction cooktop is sufficiently ventilated

PKT11 BORA Pro 2.0 Tepan stainless steel grill with 2 cooking zones

- Full-surface Tepan stainless steel grill with two cooking zones
 - 4 mm deep-drawn and brushed
 - Stainless steel with rounded inner corners for simple cleaning
 - Power setting
 - Bridging function
 - Residual heat display
 - Pause function
 - Timer function
 - Configuration menu
 - Cooking zone indicator on the control knob
 - Demo mode
 - Automatic heat-up function
 - Digital power display on the control knob
 - Cleaning function
 - Childproofing feature
 - Safety shut-down
- Make sure that the area below the Tepan cooktop is sufficiently ventilated.

The BORA principle. Or – physics can be so ingenious.

F L Y T E

FLYTE is a levitating light which hovers by magnetic levitation and is powered through the air. Designed in Sweden, the FLYTE base is made of quarter-sawn oak, ash and walnut wood finishes. We want your FLYTE to look good, feel good and last a long time. We use energy efficient LEDs rated at about 50,000 hours. That's 12 hours a day for 11 years!

003

LED Light Bulb

The Plumen 003 is not just beautiful to look at, it makes you and your surroundings look beautiful too. A hybrid lamp that combines the functional benefits of a spotlight with the warm, flattering omnidirectional glow of an accent light; the 003 is a new format of LED bulb.

The 003 is a centrepiece lamp that creates an atmosphere as the focal point of any interior; the jewelled facets sparkle and there's a magical feel in the reflected light. It's perfect to be hung over a dining table, bar or bedside cabinet. The Plumen 003 was designed by HULGER, Claire Norcross and Marie Laure Giroux.

Plumen 003
